

Wood Products Conveying Perfecting the Craft of Performance

ContiTech

www.contitech.us

Put Manufacturing Skills into Motion

Lightweight conveyor belting from Continental ContiTech is widely recognized in the wood products industry for its premium durability, performance and value. Our unique HPC[™] plied construction, premium compounds and innovative cover profiles bring you a product sure to exceed your most exacting demands.

Continental ContiTech offers a variety of compounds and cover profiles to meet any need: from belts that stand up to the terpene content of wood chips, to belts with superior gripping power for conveying wood boards up inclines, Continental ContiTech has the wood products industry covered.

There is a craft to conveying wood products, and Continental ContiTech lightweight conveyor belt is working hard to hone it. Call 1-800-LWT-BELT for more information.

Multi-plied spun polyester

- > HPC[™] Technology in two, three- and four-ply construction
- > Superior tracking in both directions
- > Resistance to edge wicking and curling
- Exceptional splicing capabilities

Multi-plied monofilament

- Covers a wide range of precision applications
- > Transversely rigid, HPC[™] construction permits the use of low energy drives and small pulley diameters in high-speed conveying conditions
- Unique fabric design offers edge wear resistance, a low coefficient of friction fabric surface, and maximum flexibility in the warp direction

Single-plied interwoven

- High-quality polyester warp yarns are woven and bound together with the weft yarns
- Interwoven carcass offers superior splice retention, tear resistance and low stretch qualities for general conveying

Continental ContiTech Lightweight Belt Coding System

Multi-Plied Spun Polyester PVG[™] Compound

Lasting performance and durability

> PVG[™] compound offers:

- Moderate oil resistance with excellent slider abrasion resistance
- Low temperature characteristics to -20°F (-29°C) under intermittent conditions

> Innovative HPC[™] - constructed multi-plied carcass provides:

- Superior tracking in both directions
- Resistance to edge wicking and curling
- Flexibility over small pulleys
- Excellent adhesions on the belt edge
- Thermo-Flo[™] splicing capabilities
- Excellent fastener retention values

Z-Belt[™] Profile PVG[™] Compound

Taking wood products conveying to the next level

> Z-Belt[™] profile offers:

- Increased product carrying capacity
- Reduced noise level and vibration on return side idlers
- Better wet drainage

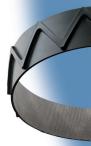

> PVG[™] compound provides:

- Moderate oil resistance with excellent slider abrasion resistance
- Low temperature to -20°F (-29°C) under intermittent conditions

Available in innovative HPC[™] multi-plied carcass and interwoven single ply carcass constructions

Ruff-Grip Profile

Superior gripping power designed to last

> Ruff-Grip profile offers:

- Unique siped ridge provides superior gripping power
- Flexing over pulleys removes unwanted material
- Non-marking PVS compound

> Ideal for conveying boxes, plastic, paper, corrugated cardboard and wood

> Innovative HPC[™] - constructed multi-plied carcass provides:

- Superior tracking in both directions
- Resistance to edge wicking and curling
- Flexibility over small pulleys
- Excellent adhesions on the belt edge
- Thermo-Flo™ splicing capabilities

ContiTech. Engineering Next Level

As a division of the Continental Group, ContiTech is a recognized innovation and technology leader in natural rubber and plastics. As an industry partner with a firm future ahead of us, we engineer solutions both with and for our customers around the world. Our bespoke solutions are specially tailored to meet the needs of the market. With extensive expertise in materials and processes, we are able to develop cutting-edge technologies while ensuring we make responsible use of resources. We are quick to respond to important technological trends, such as function integration, lightweight engineering and the reduction of complexity, and offer a range of relevant products and services. That way, when you need us, you'll find we're already there.
