

SYTLE 8200BIL

Braided from Lubricated PTFE/Graphite filaments, Style 8200BIL is an economical alternative to most PTFE/Graphite packing. Style 8200BIL is a self-lubricating, low friction packing suitable for most general service applications. Our proprietary break in lubricant ensures low shaft wear, while maintaining good packing to shaft contact. Style 8200BIL has the high heat dissipating qualities of Graphite, with the added chemical resistance of PTFE.
